Affected persons:

Young People/Clients

Staff

Visitors

Contractor

Others (specify)

Name of Manager confirming and agreeing Assessment:

Ian Price

Signature:

The following sections should be completed by all staff who need to be made aware of and abide by the findings of the Risk Assessment. NB: If, as a result of a review, changes are made to the Risk Assessment the relevant box on the attached page should be completed as appropriate by the staff concerned.

RISK ASSESSMENT

What are the hazards?	Generic Control Measures implemented	✓ X	Person to implement	Additional Control measures needed to reduce risk to an acceptable level	Person to implement	Date to be actioned
<p>Slips trips, falls and tree hazards.</p> <p>Extreme weather.</p> <p>Safeguarding.</p> <p>Injury sustained from trees/bushes or collapsing dens.</p>	<ul style="list-style-type: none"> All groups to wear appropriate footwear and clothing. Groups briefed on specific hazards. Safety briefing to highlight not climbing trees or other structures Weather forecast obtained and previous conditions taken into account. Activity adapted or abandoned where appropriate. Ongoing risk assessment at start and during activity – weather conditions continually monitored. Equipment/clothing lists sent to groups. Individuals' kit checked before session to ensure adequate protective clothing. Suitable emergency equipment accessible. Group briefing and management. Staff vigilance. Group briefed on moving safely through woods, No running and taking care not to allow branches to flick back into the face of following group 	<p>✓</p>	<p>Instructor leading the session</p>	<p>Take special note of wind speeds.</p> <p>Instructor to be aware of all groups on site during session.</p>		

<p>Plant stings / Insect stings or bites.</p> <p>Inappropriate behaviour.</p> <p>Injury sustained lifting heavy objects.</p> <p>Traffic.</p> <p>Infections and poisoning.</p> <p>Burn injuries from fires</p>	<p>members.</p> <ul style="list-style-type: none"> Structures to be assessed by instructor, dangerously weak ones to be strengthened or dismantled. Instructor awareness of the sites used and briefing given to group if appropriate on how to avoid being stung. When working with nettles appropriate protection to be used during the session. Group briefing and management. Use of 'Sin Bin' facility or suspension of activity. Group to be briefed on safe lifting technique and assistance given by instructor and or visiting staff. Group to be briefed on any walking to be undertaken along roads, to stay on pavements and behave appropriately. Group to be supervised at road crossings and to have adequate adult supervision. No plants or fungi to be eaten unless specifically told that it is safe to do so. Group to be briefed on safe lighting and management of fires. A limit on the number of fires, ideally one main fire managed by the instructor and then small fire lighting sessions involving students. 			<p>Corden off any areas with known bee/wasp nests</p> <p>Any plants or fungi to be consumed are ideally to be located away from animal paths or water.</p> <p>Water to be on-hand when fires are lit</p>		
---	---	--	--	--	--	--

<p>Burn injuries from friction fire lighting</p> <p>Illness/Allergies</p> <p>Additional potential hazards associated with a person's disability</p>	<ul style="list-style-type: none"> • No running near fires and no pushing rules enforced. • Long hair and loose clothing to be secured. • Fires to be extinguished by staff only and sites to be doused with water. • If cooking food, clear instructions to be given on safe distance to be kept from fire, sitting / kneeling near fires (ie; not standing) and safe use of skewers for toasting marshmallows, allow cooked food to cool before eating and do not wave lit marshmallows around but instead blow them out. • Any stick which is poked in the fire then stays in the fire. • For Handwashing, any alcohol spray that is used should be away from the fire and hands should be dry before returning near the fire. • Group to be briefed about hot components and then closely supervised • Information about existing medical conditions known by staff. • Additional measures may need to be taken to enable visitors with a disability to access the area on site and engage with the activity. 	<p style="background-color: yellow;"> </p>	<p style="background-color: #d4f1d4;"> </p> <p>Ensure staff or individuals are carrying appropriate inhaler, Adrenalin auto injector etc.</p> <p>A discussion with the participant along with visiting staff/carers should be had to decide on the most appropriate way to access the site. Or whether a more accessible location is used.</p> <p>Additional staff may be required.</p>	<p style="background-color: #d4f1d4;"> </p>	<p style="background-color: #d4f1d4;"> </p>
--	--	--	--	---	---

				<p>Additional time may need to be factored into the session.</p> <p>Handling belts may be used to assist less ambulant users</p> <p>Less mobile visitors may be more sensitive to environmental conditions and need closer supervision</p>
