Traffic on roads and bridleways.

Additional potential hazards associated with a person's disability

- Group briefing.
- Group management.
- Adult supervision of road crossings.

- Additional measures may need to be taken to enable visitors with a disability to access the area and engage with the activity.

A discussion with the participant along with visiting staff/carers should be had to decide on the most appropriate way to access the site. Or whether a more accessible location is used.

Additional staff may be required.

Additional time may need to be factored into the session.

Handling belts may be used to assist less ambulant users

Less mobile visitors may be more sensitive to environmental conditions and need closer supervision

For visitors with disabilities a discussion with the participant along with visiting staff/carer should be had to ensure the most appropriate PPE is worn.
