Additional potential hazards associated with a person's disability

- Additional measures may need to be taken to enable visitors with a disability to access the site and engage with the activities.

Additional staff may be required.

Additional time may need to be factored into the session.

Handling belts may be used to assist less ambulant users

Less mobile visitors may be more sensitive to environmental conditions and need closer supervision

For visitors with disabilities a discussion with the participant along with visiting staff/carer should be had to ensure the most appropriate PPE is worn.

Changing places toilet to be made accessible
