Visitors ☒

Contractor ☐

Others (specify)

Name of Manager confirming and agreeing Assessment:

IP

Signature:

The following sections should be completed by all staff who need to be made aware of and abide by the findings of the Risk Assessment. NB: If, as a result of a review, changes are made to the Risk Assessment the relevant box on the attached page should be completed as appropriate by the staff concerned.

RISK ASSESSMENT

What are the hazards?	Generic Control Measures implemented	✓ X	Person to implement	Additional Control measures needed to reduce risk to an acceptable level	Person to implement	Date to be actioned
Weather and environmental hazards. Safeguarding. Slips, trips and falls.	<ul style="list-style-type: none"> Activity adapted or abandoned where appropriate. Ongoing risk assessment at start and during activity – weather conditions continually monitored. Equipment/clothing lists sent to groups. Suitable emergency equipment accessible. Group briefing and management. Staff vigilance. Appropriate briefing to highlight correct technique for ‘sliding’ with demonstration by instructor if required. Group briefed not to walk or run on the inflatable, but to dive forwards and down, keeping low on approach. Group to be briefed Step down from inflatable at lowered sides not jump over the raised end. Group to return to queue on the opposite side to the blowers. 		Instructor leading the session	<p>Instructor to be aware of all groups on site during session.</p> <p>2 people on the inflatable (1 in each lane).</p> <p>Group to be informed about not setting off whilst others are still</p>		

<p>Inappropriate behaviour.</p> <p>Illness.</p> <p>Additional potential hazards associated with a person's disability</p>	<ul style="list-style-type: none">• Instructor to indicate when the slide is clear & the next person is safe to set off.• Marshalling of waiting group and clear briefing for waiting people.• Group briefing and management• Use of 'Sin Bin' facility or suspension of activity• Information about existing medical conditions known by staff.• Only use gentle soap solutions on the slide.• Additional measures may need to be taken to enable visitors with a disability to access the area on site and engage with the activity.			<p>on the slide.</p> <p>Ensure staff or individuals are carrying appropriate inhaler, adrenalin autoinjector etc.</p> <p>Additional staff may be required for support on the slide.</p> <p>Additional time may need to be factored into the session.</p> <p>Handling belts may be used to assist less ambulant users</p> <p>Less mobile visitors may be more sensitive to environmental conditions and need closer supervision</p>
